Subject: Application for the post Marketing & Personal Shopper

Paris, 13th May 2019

Dear Madam,

Divine Style is a personal styling and shopping service for women and men who are looking to modernize and polish their individual style. They create the individual style of their clients in order to make them look and feel better.

Currently a final year student at ISEFAC Bachelor in Lyon in luxury marketing, fashion and design, I am also an intern as a communication assistant for the IMPLICITE brand of the SIMONE PERELE Group in Paris. In addition, I am looking for a job in United States from September 2019

To do this, I would very much like to join your team within the prestigious DIVINE STYLE personal styling and shopping service which inspires me a lot and thus deepen my experience in the world of fashion and communication for which I am very attracted.

During my schooling at ISEFAC school, we had the opportunity to realize various projects such as a fashion magazine that was the subject of a national competition in which my team won in my second year and the realization of a fashion show in my last year.

I acquired a great professional experience in the fashion and cosmetics sector during my previous internships. First of all at the Yulia Moatti agency, Personal Shopper, stylist and image consultant in Cannes, as community manager and web editor. And also with my last experience in communication which took place during an exciting internship at Cliodyna in Paris, a digital platform that connects beauty and fashion professionals to customers. I was in charge of developing all the partnerships and creating the brand's digital communication.

Soon to graduate with a Bachelor's degree in Marketing & Management Luxury, Fashion and Design, I am really motivated person, smiling, attentive, loving contact and looking for new challenges and ready to leave my country, I will apply my qualities and skills for JBCSTYLE.

Thank you for the attention you will give to my request, I remain available for any interview questions.

Best regards,

Rose DARPHEUILLE
